### **DETAILED ACTION**

This application is in condition for allowance except for the following formal matters:

#### ***Specification***

Specification paragraph 0078 makes reference to K of L stimulation. Examiner suggests that K and L be replaced with M and N respectively for consistency with applicant's own specification paragraphs 39-43 as well as patent 7,149,583.

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: Claim 4 recites the limitation "the lead" which lacks antecedent basis.

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

#### ***Claim Objections***

Claims 10 and 20 objected to because of the following informalities:

Claims 10 and 20 make reference to "K of L stimulation," examiner suggests that these be amended to "M of N stimulation" for consistency with applicant's own specification and patent 7,149,583. Appropriate correction is required.

Art Unit: 3709

***Allowable Subject Matter***

Claims 1-22 are allowed.

The following is an examiner's statement of reasons for allowance: While the electrode array, stimulation channels, and envelope extractor are well known elements in the art of implantable cochlear implants, neither FTS estimator nor a current navigator which distributes FTS data to virtual electrodes are found in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
